

How to add Center-invest Online to the Home Screen

Quick access to the new internet bank with a single tap — no need to open Safari and look up the link every time.

BEFORE YOU START

Two ways to open the new internet bank

Option A • directly

my.centriinvest.ru

Enter this address in Safari — it will open the login page of the new internet bank right away.

Option B • from the home page

centriinvest.ru

Open the bank's home page, tap “Log in” and select “New Internet Bank” in the list that appears.

The remaining steps (2–5) are the same for both options and are performed in the Safari browser.

What's next — 5 short steps

1

Log in

2

Share

3

To Home
Screen

4

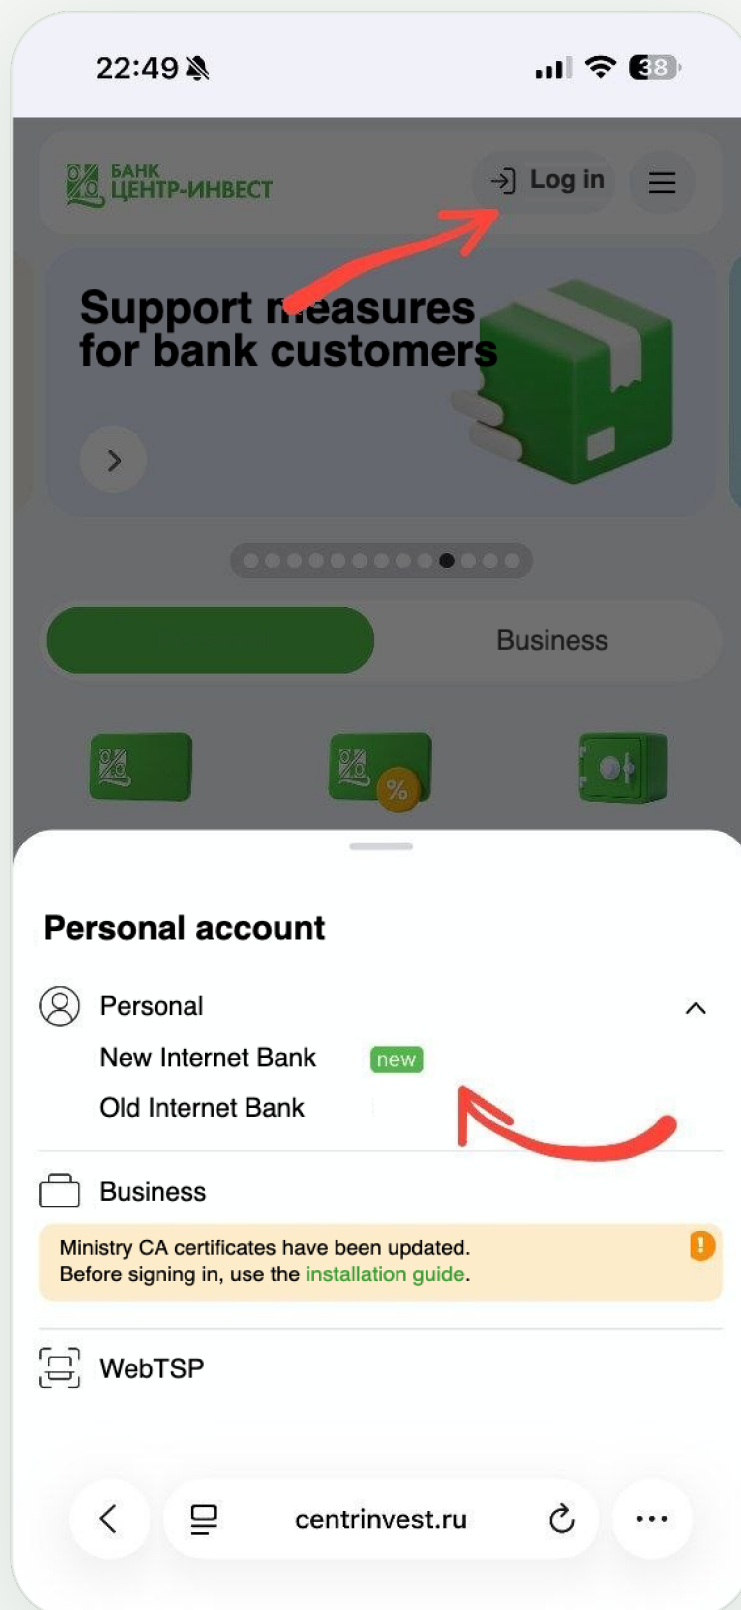

Add

5

Done

The screenshots in this guide were taken on an iPhone (iOS). Menu item names may differ slightly in other browsers.

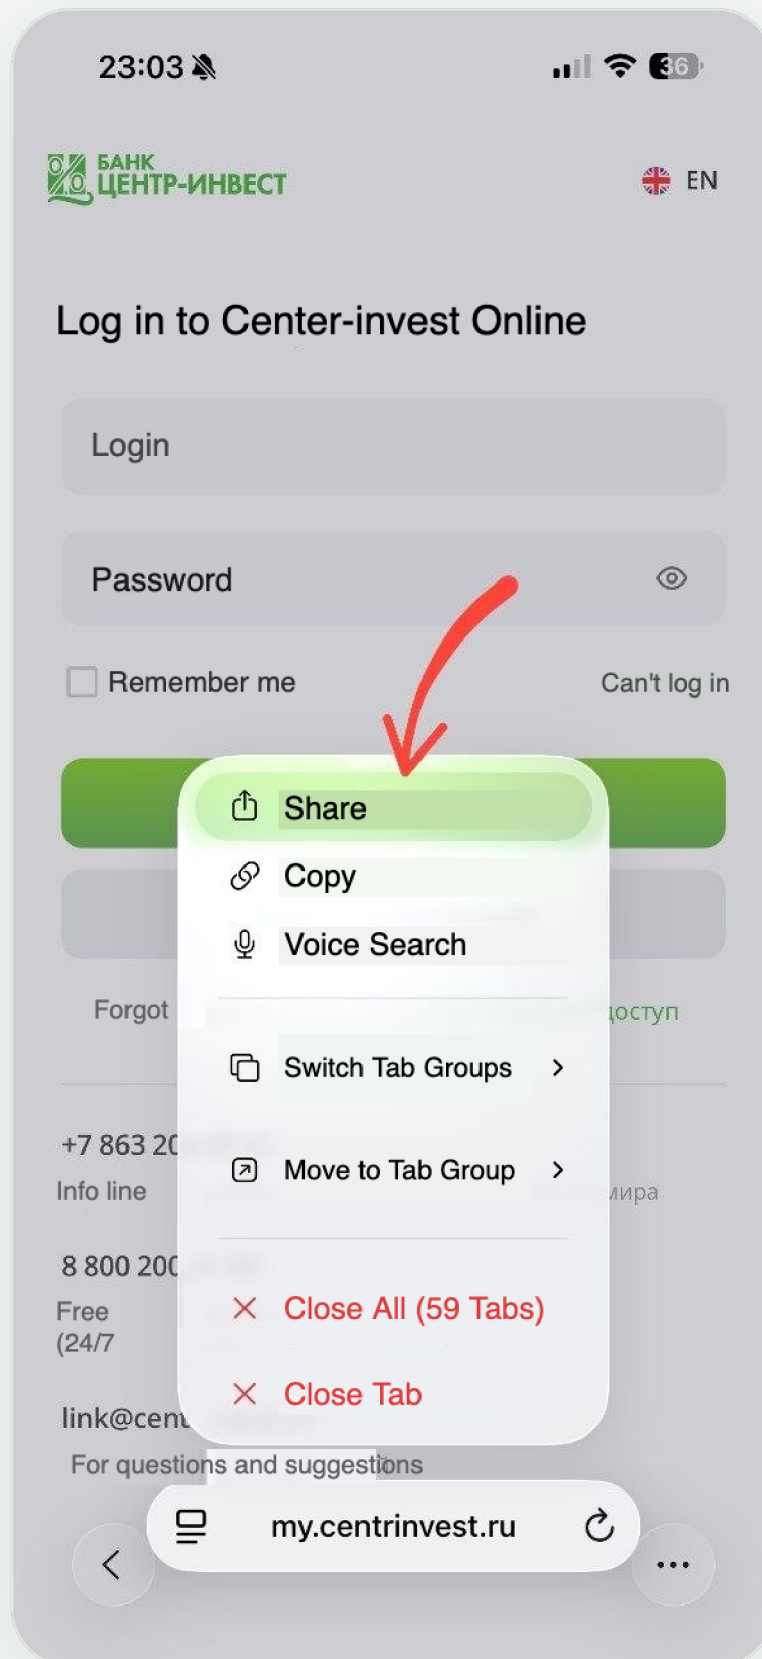

Open the new internet bank

On the home page centrinvest.ru tap the **“Log in”** button in the top right corner.

In the list that appears select **“New Internet Bank”** — it will open on a new page my.centrinvest.ru.

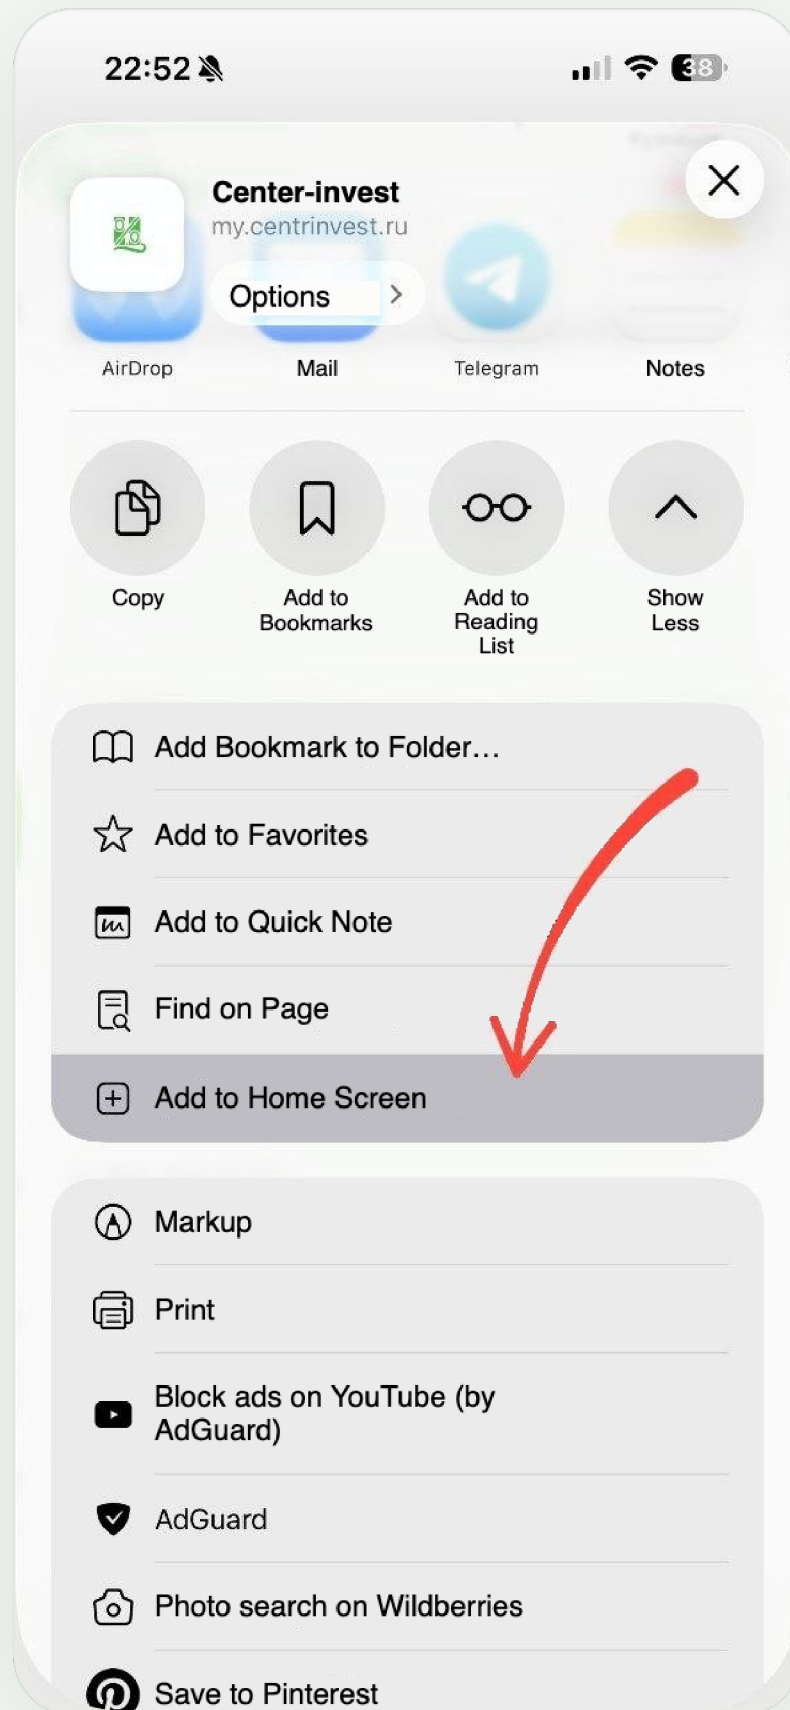

Open the “Share” menu

On the login page press and hold the login button (or the icon in the browser bar) until a pop-up menu appears.

In the menu select **“Share”**.

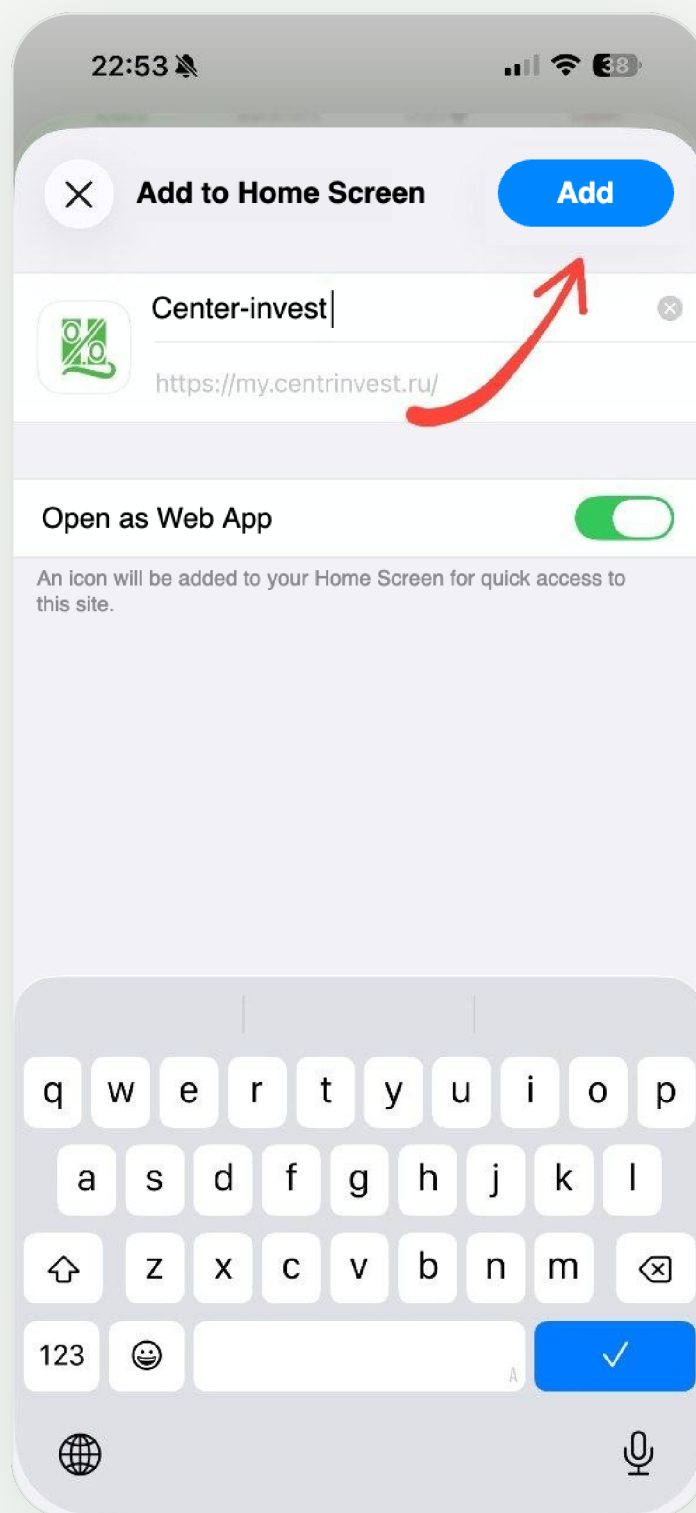

Find “Add to Home Screen”

The system “Share” menu opens. Scroll down the list.

Tap **“Add to Home Screen”** (the icon with a plus).

Confirm the addition

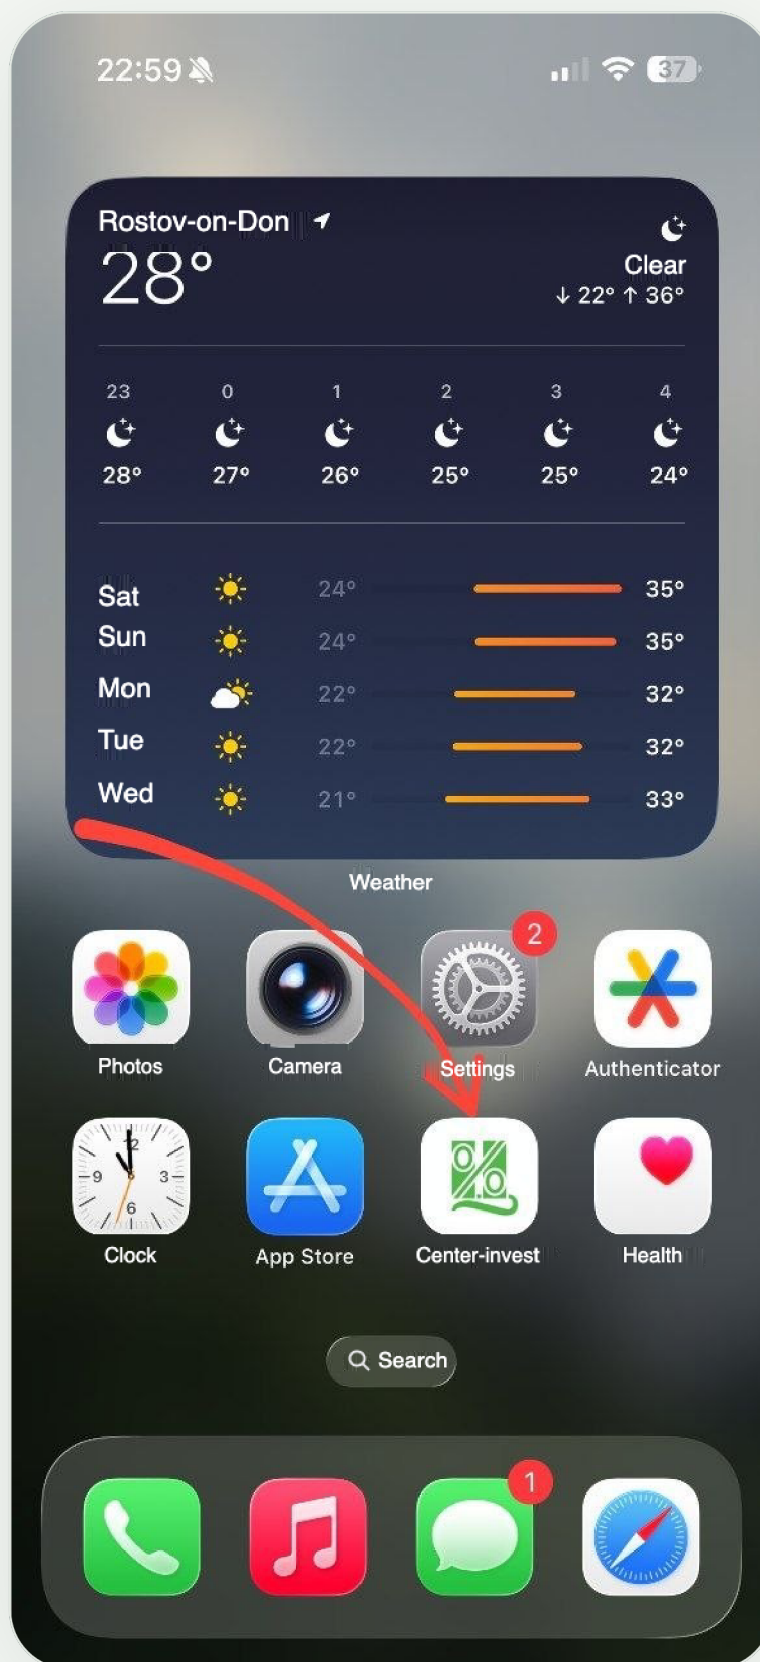

Check that the name field says **“Center-invest”**, and below it — the address **my.centrinvest.ru**.

Tap the blue **“Add”** button in the top right corner.

i It is better to leave the “Open as web app” switch on — then the bank will open in full-screen mode, without the Safari address bar.

Done — the shortcut is on your screen

The “**Center-invest**” icon appears on the Home Screen.

Now a single tap on this icon is all it takes to open the internet bank — just like any other app.

Shortcut is set up

Now signing in to Center-invest Online takes one tap from the Home Screen.

The shortcut disappeared or won't open?

Delete the icon from the screen (press and hold → “Delete App”) and repeat steps 1–5 again.

Is this a separate app from the App Store?

No, this is a shortcut link to the my.centrinvest.ru site, which opens in full-screen mode without the browser bar.

Are the login and password the same as before?

Yes, the same sign-in details are used as in the regular internet bank.

I want to add the shortcut on one more iPhone

Repeat steps 1–5 on the device you need — the process is exactly the same.
